07/31/01 I00-11-002 into the adequacy of the Southern California Gas Company's and San Diego Gas & Electric Company's (SDG&E) gas transmission systems to serve the present and future gas requirements of the SDG&E's core and noncore customers

Summary: On July 26, 2001, Rick Morrow, Vice President of Customer Services and Marketing ETS for Southern California Gas Company (SoCalGas), met with Cmmr. Lynch in Los Angeles. Also present were: Trina Horner, advisor to Cmmr. Lynch, Jeff Hartman, Director of Energy Markets-Sales and Marketing, and Lad Lorenz, Director of Capacity and Operations Planning, for SoCalGas, and Leslie Katz, Regional Vice President of State Regulatory Affairs, and Judy Peck, Regulatory Affairs Administrator, for Sempra Energy. Written materials (attached to the notice) were used. Hartman explained that the demand for power from electric generators (EGs) located in SoCalGas service territory is highly correlated to the power available from hydroelectric plants in the Pacific Northwest. Hartman noted that the existing stock of power plants in SoCalGas territory is inefficient and will likely to be displaced when new combined cycle plants are brought on line. Hartman noted that most of the new plants are being built outside of SoCalGas service territory and that SoCalGas forecasts a reduction in gas demand after 2002 as a result of this shift in EG asset utilization. Lorenz addressed the so-called "mismatch" between interstate delivery and SoCalGas' intrastate take-away capacity and explained that "mismatches" benefit gas customers. Morrow

provided an update on SoCalGas' expansion projects.
